

Project Status Report: CEEEn-2018CPST-014

Report Date: 11/5/2018

Team Members: Rob Anderson, Caleb Joubert, Natalie King (Bagley), Alec Van De Graaff (Team Focal)

Project Title: Santaquin Irrigation-Water Conservation Study

1) Summary of technical/non-technical challenges encountered

- No challenges were encountered this week.

2) Team approaches & resolutions to overcome challenges

- We have begun putting together a model for the analysis we are doing in GIS.

3) Status of challenge resolutions & potential project impact

- The skeleton of the model is complete, we will work on putting the data in and running the analysis in the following weeks

4) Project status & summary

- The project is within budget and within scope as discussed with the city of Santaquin.
