Project Title: Reservoir management

1) Summary of technical/non-technical challenges encountered

- N/A

2) Team approaches & resolutions to overcome challenges

- N/A

3) Status of challenge resolutions & potential project impact

- Planned a lunch with Fidel, and we will have time to discuss our plans for the project.
- We created a team time log to better manage our time and schedule meetings.

4) Project status & summary

- This week we prepared a presentation and questions for INDRHI regarding our project. Meeting will be held next early next week.
- With implementing our time log we have been more efficient with time. We developed a scoreboard to help us track each other's tasks and assignments each week. This has been a positive tool to help us keep each other accountable as we prepare for meetings.
- Currently we are still in early planning phases, a majority of headway and direction regarding our project will be made at our meeting this coming week with our sponsor.
- We emailed our sponsor to review our statement of work. We are waiting for a response for any thoughts or corrections
