

Project Status Report: CEEEn-2018CPST-002

Report Date: 2/11/2019

Team Members: Ammon Hymas, Brandon Roberts, Roman Calderon, Yejezkel Jimenez

Project Title: Erickson Anchorage of Roof-Top Equipment

1) Summary of technical/non-technical challenges encountered

▪ Everybody’s new schedule is different which makes it hard to meet.

▪ Since the feedback we got from the client was via email, of course there were details that we weren’t sure about, and a lot of questions that we had to figure out.

2) Team approaches & resolutions to overcome challenges

▪ We will be meeting as a partial group through the week

3) Status of challenge resolutions & potential project impact

Since the spreadsheet had to be more interactive and user friendly, we decided to use VBA coding to enhance the spreadsheet. And we asked for help from the TA from that class in some questions we had.

4) Project status & summary

We started to study the IBC manuals to see the changes or variations of the codes. We worked on enhancing the spreadsheet to be more user-friendly.
