

Project Status Report: CEEEn-2016CPST-008: Pavement Management Research Project
Team Members: Derek Linford, Trenton Parks, Robert Thompson
Date: 1/23/18

<p>1) Summary of technical/non-technical challenges encountered</p> <ul style="list-style-type: none">• We are trying to come up with a way to survey the street superintendents in order to gather information on what treatments they use on their roads.• We have had a hard time coming up with good questions that are encompassing but also short and to the point.	<p>2) Team approaches/resolutions to overcome challenges</p> <ul style="list-style-type: none">• To address to challenge of creating an effective survey, we were able to come up with a few ideas to survey the street supers. We are going to use Qualtrics and excel to gather information.• To get feedback on how we can effectively survey the street supers, we were able to talk with our faculty mentor, Dr. Guthrie and get good feedback. We were also able to get in touch with JUB engineering and get feedback from our sponsors.
<p>3) Status of challenge resolutions & potential project impacts</p> <ul style="list-style-type: none">• We are currently keeping to our schedule and we have been able to resolve our challenges in a timely manner.	<p>4) Project Status & Summary</p> <ul style="list-style-type: none">• We are currently working to complete the survey and then send out our survey to various street superintendents in Utah County.
